

Schools Battery Collection Program

Thank you for your interest in the EMRC Schools Battery Collection Program. The battery collection program is an important program that prevents batteries from ending up in landfill and instead enables them to be correctly recycled.

Once we receive the following information from you, you will receive a main battery collection bin and battery containers for classes wishing to have in-class collections. An introduction pack is also provided which includes information on what happens to the batteries after collection, how the program is successfully ran in other schools, the dates your bin will be emptied and a letter for parents to encourage the broader school community to come on board.

Please fill out the information below so we can register your school.

School: _____

Address: _____

Name of Person to Contact: _____

Phone Number: _____

Email Address: _____

Preferred contact method (please tick): Phone Email

Number of small battery containers: _____
